10. SUSPENSION OF THE SERVICE

- 10.1. You agree that from time to time it may be necessary for Vodafone to temporarily suspend the Services, with or without notice, during periods of repair, essential maintenance or alteration or improvement to the Services or otherwise in accordance with the law.
- 10.2. We may immediately, without notice, temporarily bar, suspend, restrict, and/or disconnect your use of the Services (collectively "Suspension") wholly or partially for any valid reason, including without limitation, where:
 - a) in fulfilment of any instructions requested by governmental or regulatory authorities;
 - b) you fail to pay any Charges set out in this Agreement;
 - c) you fail to observe any other term or obligation set out herein or any relevant law; or
 - d) you engage in any activity (or permits any activity) which Vodafone (as in its discretion shall determine) considers:
 - 1.1.a.a.1. to be contrary to existing legislation or regulations applicable to provision of the Services or
 - 1.1.a.a.2. is or is likely to have an adverse impact on the quality of the Services or the integrity of the Services.
 - 1.1.a.a.3. is in breach of this Agreement.
 - e) if any failure, interruption, disruption or congestion of or in any electronic communications network, system or Services (whether of Vodafone, the Access Provider or any other person).
 - f) for health and safety considerations; and
 - g) for any other reason beyond our control.
- 10.3. We shall use reasonable endeavours to contact you, but shall not be obliged to contact you, prior to any such suspension of the Services.
- 10.4. We shall be entitled to maintain suspension of the Services until any breach described in term 10.2 is remedied to our satisfaction.
- 10.5. Where your Services are suspended in accordance with the above, any request for changes to the Services (including upgrades/downgrades or cessation) shall not be possible.

11. QUALITY OF SERVICE & COMPENSATION

- 11.1. The minimum annual Service availability on Vodafone's network, excluding Force Majeure cases and/or faults attributable to the Customer and/or other third parties, is 99%.
- 11.2. The Services are offered on a contention ratio basis and all facilities for traffic management, routing as well as the bandwidth itself are shared amongst a number of users. The quality of service may vary according to the number of users online at any one time and cannot be guaranteed.
- 11.3. We shall endeavour to provide you with a connection speed that reflects the Services which you are being subscribed to. The connection speed is the speed at which data is transferred between your computer and our network. The connection speed will always be greater than the download speed, which is the speed at which data is transferred from the internet to the user's computer, since download speed is dependent on internet or network congestion, and the speed of websites that the user connects to on the internet, among others. The maximum connection speed that can be achieved will vary based on a variety of factors, including, but not limited to number and type of appliances utilising the Services, the wiring/cables in your Premises, the number of services you have connected to the internet at any point in time, the equipment you are using, as well as the connection speed that can be reached by your devices or website you use. You may thus not always be able to reach the maximum speeds available to you in accordance with your Specific Terms and Conditions and you agree that such limitations may exist for the duration of the provision of our Services to you.
- 11.4. Quality of service is also dependent on the users' traffic patterns and Vodafone performs bandwidth management at an application level to ensure that bandwidth is being shared fairly amongst users. This management also ensures fair weighting between various applications to ensure that heavy usage applications such as peer-to-peer downloads do not congest the system in a way that the system becomes unusable for other users. Services continue to be offered as they have always been, on a best effort basis.
- 11.5. Network management procedures and tools that are consistent with industry practice are utilized to ensure that the integrity of the Vodafone network is maintained. In cases when the Vodafone's network is at risk of being congested, Vodafone reserves the right to take whatever action it sees fit in order to ensure that the quality of service is not impacted. These actions may result in customers experiencing varied service and performance levels.
- 11.6. We review individual subscriber upload and download usage and behaviour relative to average customer use of the network for each product. In the case of congestion caused by abusive use of the service or activities which impair other customers from accessing the network, Vodafone may intervene by notifying the customer of the abusive behaviour. Where traffic is repeatedly abusive Vodafone reserves the right to stop provision of the Services.
- 11.7. In cases where we establish that your Service with us has experienced continuous or regularly recurring problems, at our sole discretion we may offer you compensation or a partial refund, subject also where applicable to any previous compensation and/ or partial refunds we may have already given you.

- 11.8. We do not guarantee that the network covers the whole Territory or else that the quality of service is the same throughout. We may not be able to provide you with the Service in the location of your Premises or else provide it to the level of quality you desire.

12. COMPLAINT AND FAULT HANDLING & COMPENSATION

- 12.1. We shall do our utmost to provide continuous and good Services, however we acknowledge that problems may arise. In these cases, you may report the matter to us for further investigation (see term 12.5 below) and may escalate the matter if not satisfied with the outcome. Should you remain without the Services in the event of a network fault, we will provide you with a pro-rata credit compensation to your account. This compensation does not apply to lack of service attributable to (a) Force Majeure, (b) any circumstance which is attributable to you and/or (d) in case you refuse to provide an access to your Premises from the dates proposed by us. The pro-rata compensation will be calculated on the monthly fee payable by you for the Service in line with the applicable Specific Terms and Conditions from the day the fault was reported until it was resolved.
- 12.2. In case of lack of full service performance of your Services, a maximum repair time of five (5) Working Days shall apply from the date that the fault was reported and subject to you accepting the first available appointment. This excludes any cases of Force Majeure, damage or disruptions caused by you or other third parties. You agree to adhere to any reasonable instructions issued by us in order to facilitate restoration of the Services. Where such instructions are not adhered to, you acknowledge that we are not able to adhere to this timeline. Fault rectification is free of charge unless it is attributable to you, in which case it shall be charged as per the fees mentioned in the Specific Terms and Conditions and/or the Schedule of Charges.
- 12.3. If you believe that the Services provided deviate from the contracted typical speed range (TSR), you may contact Vodafone as per Term 12.5. If after due investigation it results that we cannot provide the Services in line with the contracted typical speed range (TSR), you shall have the right to rescind the contract without incurring any penalty charges.
- 12.4. Although we undertake to provide you with the Equipment of the highest standard and quality, it is not excluded that the Equipment or any component might get faulty. In such case, you should visit Vodafone Service Centre in Birkirkara, so the Equipment can be inspected and diagnosed. We will fix or replace the Equipment free of charge immediately there and then. In cases where you are not entitled to a free repair and/or replacement due to a diagnosis proving that the fault of the Equipment is attributable to misuse, mishandling, wilful damage by liquids, connection to unsuitable supply, power surges, lightning, tampering, service by unauthorized persons or any other use of the Equipment that is not in line with term 6 above, you will be liable to pay to us a repair and/or replacement charge depending on severity of the diagnosed fault.
- 12.5. Should you wish to lodge a complaint or a query to Vodafone with regard to the Services, you can visit one of Vodafone's retail stores, call 247 (16230 in case you are a business customer), or send us an e-mail to 247.mt@vodafone.com. You will be subsequently contacted by our representative within ten (10) Working Days from lodging complaint.

The Malta Communications Authority can be contacted either through their website (<http://www.mca.org.mt/consumer/forms/complaints>) or you can call on 21336840.
