

BLACKBERRY® PROFESSIONAL SOFTWARE

BlackBerry® Professional Software is a new edition of the trusted and proven wireless solution, optimised for businesses with up to 30 mobile employees. It's easy to set up and control, and combines the right mix of price and features. It's ideal for growing businesses that want to take advantage of the benefits of BlackBerry® solutions, offering the perfect combination of enterprise features and low cost.

PERFECT FOR YOUR BUSINESS

If your company has between 5 and 30 mobile professionals BlackBerry® Professional Software offers a way to significantly boost their productivity whilst on the move, with minimal IT support or hardware liabilities.

With BlackBerry® Professional Software you can:

- **Work wherever work takes you** – With secure wireless access to emails, calendar and other business people can stay productive throughout the day wherever they are, meaning more efficiency, more profitable use of time, and better work/life balance.
- **React faster to opportunities** – BlackBerry Professional Software offers you the chance to stay connected to clients and collaborate with colleagues, wherever business takes you.
- **Control how your wireless solution works** – with BlackBerry Professional Software you decide how BlackBerry smartphones should work for your business. Central administration gives you highly flexible control over your devices.
- **Mobilise for success** – A BlackBerry smartphone offers everything you need for business and life on one handy device. With feature-rich, low-cost BlackBerry Professional Software you can also enjoy many of the same benefits as enterprise businesses, such as remote access to CRM databases.

AFFORDABLE AND EASY TO MANAGE

Based on exactly the same technology used in enterprise businesses around the world, BlackBerry® Professional Software installs out of the box onto your existing Microsoft Exchange or IBM Lotus Domino email server. It's scalable and flexible, proven under fire, and can be up and running in minutes. It's easy to manage even for non-IT users. Best of all, it's surprisingly affordable, and will quickly deliver a compelling return on your investment.

SOLUTIONS THAT GROW AS YOUR BUSINESS GROWS

BlackBerry® Professional Software is an ideal choice for organisations who may wish to scale up their BlackBerry solution in future. Whatever your future plans, BlackBerry Professional Software is the ideal choice. It uses the same Client Access Licences as the BlackBerry Enterprise Solution, which makes future upgrades simple, and it's also backwards compatible with the existing SME version of BlackBerry Enterprise Solution – users of this can now upgrade for free using a service pack.
